

FIELD TRIPS FOR YOUNG LEARNERS

At Kukama Wildlife College, we believe that the best way to ignite a passion for conservation and the natural world is through hands-on, immersive learning. That's why we offer exciting and educational field trips tailored specifically for primary school students and young learners up to 16 years old.

Our programs are designed to spark curiosity and foster a deep connection with nature in a fun and safe environment. Located on the edge of the Kalahari, Kukama provides a unique opportunity for young minds to engage with wildlife and explore diverse ecosystems first-hand. Whether it's tracking animals on a bush walk, observing wildlife in their natural habitat, or learning about the vital role of conservation, each trip is designed to be both educational and enjoyable.

OUR FIELD TRIPS ARE MORE THAN JUST AN ADVENTURE.

THEY ARE A CHANCE TO:

- Discover the wonders of wildlife and the importance of conservation.
- Engage in hands-on learning through nature walks, wildlife monitoring and interactive activities.
- Learn about the unique flora and fauna of the region, from the smallest insects to the majestic animals of the Higher Kalahari.
- Develop environmental awareness and a sense of responsibility for the planet.

OUR EXPERIENCED TEAM ENSURES THAT EVERY CHILD IS SAFE, SUPPORTED, AND EXCITED TO LEARN, WITH EACH FIELD TRIP CUSTOMIZED TO MEET THE AGE AND EDUCATIONAL NEEDS OF THE GROUP.
